THIS WAT WAS STARTED BY THE LATE ROBERT THORSE SCOTCH WHISKY.

HONG KONG, CHINA & MANILLA. A. S. WATSON & CO.LTD.

EASTER AND UNION CHURCH

Hongkone May 1/19-7

On Easter Sunday the music was all of a seasonable character, reflecting Christian triumph and hope. The lev. C. H. Hickling preached morning and evening. He dealt with the Resurrection as related to Personal Experience. Evidence was forth coming from all quarters and from all centuries that there w a a new living force in the world. Wherever the living presence of Jesus Christ was honestly and devotedly believed-there developed Christian virtues. Thus the belief in and trust upon Christ as living was an integral part . of the Gospel which was elevating the

On Easter Monday over one hundred Sole Lesses and joined the Launch Picnic to Junk Bay. The weather was perfectand teamsfully enjoyed. The grassy slopes of the hills were climbed and Mirs Bay viewed. Games and sports were entered into with zest, the prizes being afterwards distributed during the seturn trip. This was one of the most successful picnics ever organized by the Society of Christian Endeavour.

SANITARY DEPARTMENT ESTIMATES.

this afternoon, the draft estimates for 1910 were considered.

Mr R. O. Hutchison, submitted a lengthy. minute as to changes suggested in the draft Company estimates. Dealing first with personal emoluments, he stated that it was proposed to do away with the post of principal clerk and appoint a new secretary at a calary of £360 to \$420. Under the vote coolies" the total number provided was 88, which number he thought would have to be increased as the method of The Brilliant Mediaeval Satire engaging coolies from a contract r for such work as traction, disinfecting, etc., had been found unsatisfactory. He proposed in the estimates to recommend provision for 100 permanent coolies. Under the head of disinfectants he stated that the estimates for 1909 amounted to \$13,000 and as during 1908 the total amount expended was \$7,095 he thought it was safe to make a considerable reduction in the vote for 1910. He pointed out that a considerable saving could also be effected in the lighting of the Central Market by means of Kitson, lights and the Electric Company had also offered to contract to light the market under certain conditions at a considerably cheaper rate. The saving effected would be \$3000. With regard to the removal f ceilings he thought that provision ought to be made for compensation under this work and suggested that a definite sum should be asked for, namely

Mr Shelton Hooper minuted-A copy of the draft estimates ought to be furnished to each member of the Board. It is impossible in the short time allowed for oir enlation to thoroughly digest them. Hon. Mr Hewett I agree with Mi Hooper. The Board should also have a copy of the Chairman's minute re estimates. Mr Ho Kom Tong-I agree with Mr Hooper.

A beggar named Hirosawa Jukichi Box Plans at crept under the flooring of the famous temple of Zo jo, the mausoleum of the | S. MOUTFIE & CO. Shoguns in Shiha Park, Tokyo, and as the night was cold he lighted a fire. The flames caught the building and it, together with priceless treasures of antiquity, was burnt to the ground, the loss involved

smounting to ¥4,000,000. In Mornington leland, one of the Wellerley group, in the Gulf of Carpentaria, MrR. B. Howard chief protector of aborigines in Queensland, has found a tribs which it is believed has never before come in contact with white men. After eserching valuly for two days, Mr Howard some upon a lew natives, and alterwards a considerable manber were seen. The blacks, THE he says, were in their Drinilive state. They did not know the test of longood and would ser out bread ment, or orm surer a though Albury a could be seen and a seen and a seen and a seen a

Some Comparisons with WEI. HAI. WEI. Hongkong.

(Specially varietien for the "CHESA MAIL.") While we in Hongrong have been rejoid ing in present portents of renewed prosperity to follow upon the period of tradal and commercial depression through which it has been our misfortune to pass during the last three or four years, it is interesting in more ways than one at the present time to consider the relative conditions appli-Strain Settlements. There, in no less a common than here like yeneral depression of trade his made itself felt movemby not beating yours, but there, ngain, they have to take into celculation a gregier number of interests then we have to do here. For, in Hongkong, it may le said in the main that everything diponds wpon the shipping. Il, as the Bari all Hoselick declared on a notable occasion of Egypticine Nile; and the Nile is Egypt." so it may be said that "Hongcong is the Hashen und the Harbour i Honglong," for beldes being the natural seaport of Canton with its vant annual turnover of merchandise, the Island is also a highly important entropôt for shipping from all parts of the world. By our imports and exports ye shall know us.

FOREIGN ELVALS. In the Straits Settlements, however, the community labour under a considerably different set of conditions - more involved and intricate, and promising to become increasingly so as the years rollen. One of the first factors making for this alteration of orcumstances is that while Hongkong is practically free from rivalry as an entrepôt, neither Singapors nor Pening now enjoy atty such monopoly or privilege. The former of the two sister settlements has already found her supremacy as. coaling station challenged, if not yet seriously, menaced, by the activity of the Dutch in the establishment of Sabang as a coaling port; while Penang has suffered in her transit trade admowledgedly by reason of the fact that the steamship lines whose bottoms carry the bulk of the products of Polynesia have adopted a system of shipping direct to India and Europe instead of landing their cargoes at Penang in transitu. As regards her docks and wharves, Singaapore still holds unquestioned first place in the southern sors, and when the great Harbour Extension Scheme has been completed her positionin this respect will have been rendered still more unassailables

Improvements and estensions are likewise being effected in Penang with a view to revivily her dwindling transit tride. DOCKS AND HARBOUR. The undertaking of these great Har bour Works was of course preceded by the Government's exprepriation of Tanjong Pagar Docks, which purchase was effected at a figure enormously beyond the expectations of all except a few of the most sanguine shareholders in the old Company; and there is no doubt that the award given by the Arbitrators came as a severe shock to the Government and its financial advisers. In the opinion of many keen observers, the Government had

" bitten off more than they could chew," for in expropriating the Docks they took upon their shoulders both the Tanjong Pagar Improvement Scheme and the Harbour Extension Scheme-each involving huge expenditure. In many influential quarters, indeed, fears were freely expressed that the credit of the Colony in the English, American & German money markets would not stand the strain of mising the necessary loans but it is hardly necessary to say that these grounds have been proved to be groundless, and the Colony is to-day in a more favourable financial praition that it ever occupied before, although it has had to suffer like the rest of us from incidental tightness of money on more than one occasion within

the past three years or so Other large public works have also called for the raising of eriensive loan, yet in no way have there appeared indications that Strain Settlements securities have deprocested in value to any degree. It must be some years before the Harbour and Dook Schemes much completion, but one may safely predicate for these undertakings a success in proportion to their ample scope, when one takes into consideration the advantageous plaby held by Singapore as the Key to the Far East."

THE PHILD DOLLAR. One more respect in which the Straits has hid different conditions to face, as complied with Hongkong diving the DR. HARRY FONG period under review was that she followed (Continue on Page 8)

A CELEBRATED

Head Pains, Gout, Lassitude -

Readers see for themselves that those in a position to pick and choosewhether they are Royal Personages, popular celebrities, experienced doctors, nurses, athletes, &c .- without exception unhesitatingly select Phosferine as the one certain remedy for all nervous disorders. All these distinguished people positively attribute their increased energy, efficiency, or prowess, to the revitalising potency of Phosferine, and their opinion is again confirmed by the celebrated beauty, Mrs. Una de Louth, who finds the wonderful tonic imparts such a delightful feeling of youthful vigour, that she can retain her good looks without the least trouble. Mrs. Una de Louth is déeply grateful for the inestimable service Phosferine rendered her in completely curing gouty head pains, and so effectually dispelling the nervous depression and lassitude which endangered her exceptional beauty, that she has kindly permitted us to publish her happy experience of Phosierine for the benefit of other readers.

Quite driven away.

Mrs. Una de Louth (the beautiful and talented Society reciter, and daughter of a late well known Member of Parliament), writes ;-" I have great pleasure in stating that your Phosferine has done more for me than all the doctors, for long standing and severe gouty pains in my head. Indeed, I have had instantaneous relief after taking only a few drops of your wonderful world-famed remedy and I would never be without it in the house again on any consideration-I treasure

it among my household gods. I always find Phosferine helps me and invigorates my system to a wonderful extent, and before acting or reciting have never known it to fail. It is in my opinion a tonic that has marvellous and lasting effect, and all who have tried it agree with me that I do not overrate it in the least."-8, Lansdowne Sq., Hove, Sussex.-Nov. 2, 1908

has become an accomplished fact in the Southern Colony it is maping the benefits which must follow inevitably upon the establishment of a stable currency. BRITISH MILAYA. Most important of all the phases of differentiation that have to be taken into account in attempting any comparison between the commercial conditions of the two Colonies is the relationship existing between the

Straite Settlements and their vast hinterland of the Malay Peninsula. Just recently the through line of railway which is destined some day to connect up with Burms and India was opened for running between Singapore and Penang With the exception of Johors, which is a Suzerain State, all the territory across which the railroad stretches belongs to the Federated Malay States, or British Malaya, as they are often styled, a country which produces no less than two-thirds of the tin supply of the whole world, as well as being a most notable rubber-planting area. Of these States, with their hige working population, the natural forders are Singapore and Penang, to which ports a valuable and increasing trade thereby accrues. During the general depression of which mention has been made, both tin and rubber have suffered incidentally, but the position at present cannot be regarded from a pessimistic point of view. Rather there is an inclination among planters and 1900. miners to look upon the bright side of

these important industries in the immediate EXTENSION OF TERRITORY, On the whole the Straits Settlements trade prospects now may be said to be resier than they have ever been before. The import and expert returns for last year are not yet procurable, but the half yearly local reports published show no cause for despondency; and there is room for still further hopeful speculation in the fact that Great Britisn's scope of influence in Malaya has been almost doubled by her recent acquisition of the Siamese Malay territories of Kedah, Kelantan

ENGLISH SPORT IN AMERICAN

EYES.

Ar the time of the Olympic games in are elated or depressed accordingly London a good deal of ill-feeling was while the English take these matters unfortunately aroused in the United much more calmly, and, while eager States at the decisions given sgainst to win, welcome these contests as being various members of the American athletic team, and much wild-writing selves. In England there is a was indulged in by that section of the large and mature public, thoroughly BRANDY 41,00 trans-Atlantic press which still believes | conversant with the rules, precedents, it good political policy to "twist the lion's tail." Of course such writing provoked retaliatory replies, couched generally in language which made the judicious grieve. The soberer section of both nations, however, held aloof from the controversy, confident that it was a case in which the old proverb was right when it laid down the golden rule that "the least said the sconest mended." The bitter words written and spoken on either side of the Atlantic have, thank goodness, been almost forgotten now and a calm review of the situation allows one to see that there were faults on both sides: that sufficient allowance was not made for divergent national traits and methods; and that the exercise of a little more tact than was exhibited by the officials at Olympia would have prevented a great deal of the subsequent unpleasantness. late there have appeared in American magazines some sane and keen appreciations of the English ideals of sport and none have been couched in kindlier you than NOTE .- Port, after removal, should be that which Serioner's prints under the heading "England and the English. Wine required for IMMEDIATE use from an American point of view." The should be ordered to be decented before writer of the article estimates that fully £46,000,000 is invested permanently in These Wines are specially recom- sport in Great Britian and that more mended, being of superior vintage, old, than that amount is expended annually. and thoroughly matured, and in fine These figures look rather big, but we fancy they do not err on the side of exaggeration, when we take into consideration the wide ramifications of sport. Opinion, of Manh 23, gives particulars and Thomson. Since 1902 Mr. Thomson. and the thousand and one industries

CONSOLATION RACE, 120 YARDS.—Open to all competitors (exce t those in open events). First prize presented by Mr J M. Rochs. A. H. Carroll, 1. Madamo Leiria, at the conclusion of the sports, on the invitation of Mr A. G. da Rochs, vice-president of he clab, kindly she could not be surpassed. Miss Celia sented by Mr L. M. Alvares, Second prize presented the prize, and was presented with a lovely bouquet and a silver vase. Consul General J. J. Leiria, on behalf of Midame Leiris, thanked the Vice-President, the Secretary, and the committee of the still more handsome silver presentation. It was a very pleasant duty to distribute A prizes and be presented with a silver souvenir, especially when acknowledgment had to be made by the poor husband, who got nothing. He was sure all had enjoyed the ports immensely; they had seen good racing, and there was no doubt that the best menhad come in first. (Applause). He congrawlet d the auccessful competitors, and

trusted that the less fortunate ones would have better luck pert year. There was no cloud that the success of the sports was due to the hard working vice-president, the energetic secretary and the committee in general. Thanks sero due to Sir Frederick Laterd for his kind patronage, to he scener Olub for the loan of the ground to Bishop

THE COMPENSATION VOTE.

Singapore Editorial Comment,

Dealing with the remarks made at the recent meeting of the Finance, Committee of the Legislative Conneil with regard to the voting of \$11,613 as compensation for the closing of the opium divers in March last, the Singapore Free Press observes :-It is perfectly true that the Hongkong Opium Farmer can only look to the other party to the contract, namely the Hongkong Government, if the contract be vitisted by any act on its part detrimental to the due working of the contract, Formally the Hongkong Government is liable to pay compensation to the Opium Farmer by its extinction of a large proportion of his means of revenue, the means that were an existing factor when the contract was signed, and therefore a valid factor in the contract But the Hongkong Government is not a free agent. It has vitiated the contract because it has been, whatever the actual form of communication, ordered by the Home Govern- 155 ment to vitiate the contract. Mr Hewitt, who is the energetic and public-spirited representative of the Hongkong Chamber of Commerce, only did his duty in protesting against the Hongkong Government voting out of its revenues compensation for an injury it was commanded to inflict upon the Opium Farmer. telegram says that Mr. Hewitt declared that " Parliament should contribute to that that the British Parliament should at once provide the whole compensation. The Hongkong Government practically is no more responsible than is the lethal weapon

in the hand of a murderer. You do not hang the lethal weapon. It is a safe rule in ordinary life, wherever there is any loud REDUCED FARES. Cargo booked through for all Australian, New Zealand and and persistent profession of exceptional Tarmanian Ports. virtue, to look out for the criminal. The crimicality may not be found out. It may Dining Saloon. not even come off, so far as the outward world is aware; but the capacity is there all the same. We do not trouble curselves by sincere in its complaisance to a crooked and Northern China Ports agitation in England, but it would be difficult to find words for its compelling the Hongkong Government to do its dirty work for it, without itself incurring the coat in the way of compensation. But we do not specially complain, for this immoral effort to reduce the Hangkong revenues. and then to compel Hongkong to pay for having its revenue reduced, implies the possession of just that low type of ingenuity to be expected from such an agitation and the official accomplices of that agitation."
